

I put on protective gloves

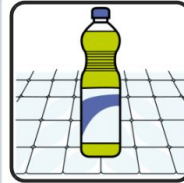

I take a sponge

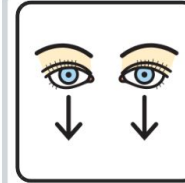

I take dishwashing liquid

I take a cloth.

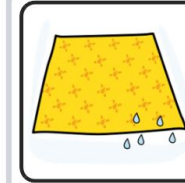

I take a multi-surface cleaner or a household cleaner.

I check that the cooking plates are off and cold before starting.

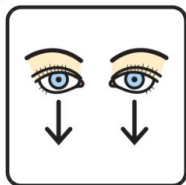

I pour a little dishwashing liquid on the stovetop. I scrub with the green side of the sponge.

I put some household cleaner on the cloth.

I clean the hood with a cloth and household cleaner. I soak the filters in hot water and soap for 30 minutes.

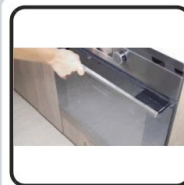

I check that the oven is off and that it is cold.

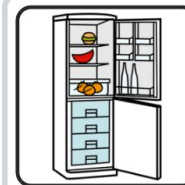

I am now going to clean the oven.

I clean the inside of the oven with the cloth and household cleaner.

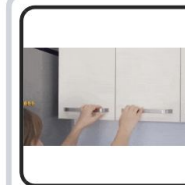

I remove the oven racks and let them soak in hot, soapy water for an hour. I scrub with the green

I am now going to clean the fridge. To start, I empty the entire fridge.

I wipe the fridge everywhere with a cloth and household cleaner. I remove the fridge bins to make it

I open my cupboards and empty them one by one. I wipe them with a cloth and household cleaner.

I always clean the outside of the cabinets with the cloth.

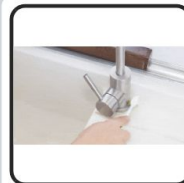

I wipe the countertop with the cloth. I scrub well if there is a stain.

I do the dishes with the sponge, dry them, and put them away.

With the sponge and the dishwashing liquid, I clean the sink.

With the sponge, or a toothbrush if it is very difficult, I scrub around the faucet.

With the cloth and the household cleaner, I scrub the inside of the microwave.

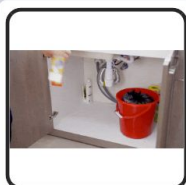

I sweep the floor.

I pour some multi-surface cleaner and water into the bucket.

I dip the mop into the bucket and clean the entire kitchen floor.

I put away the cleaning things and products under the sink.

I take out the trash.
