

I go to the bathroom

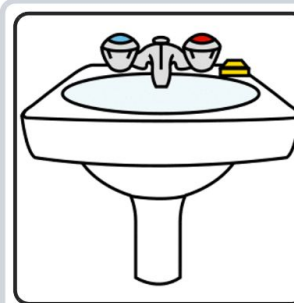

I find the nail clipper

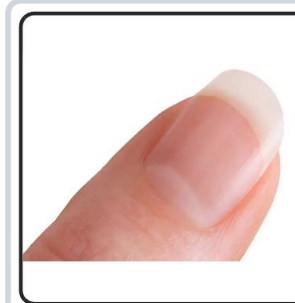

I wash my hands with soap.

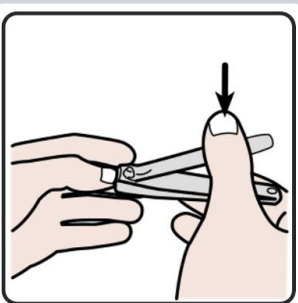

I dry my hands with a towel.

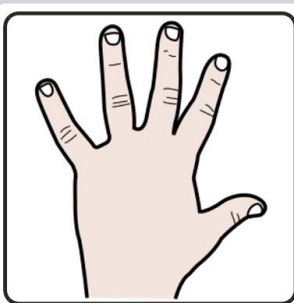

I stand in front of the sink.

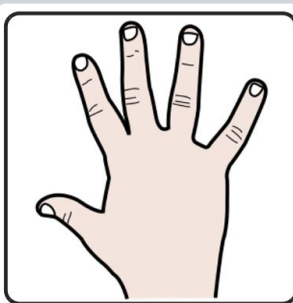

I need to cut the white part of the nail.

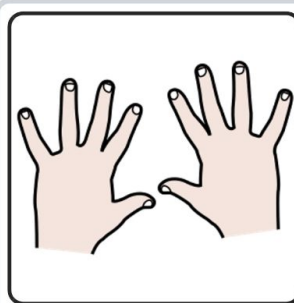

I have to cut my nails gently. Otherwise, I can hurt myself!

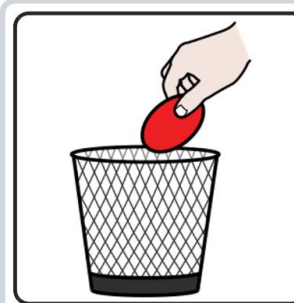

I start with the left hand

I continue with the right hand

I look at my hands to see if I have forgotten anything

I throw the nail clippings into the bathroom trash.

I wash my hands again.
