

I go to the kitchen.

I take a bag of rice and place it on the work surface.

I choose a saucepan with a lid.

I take a colander

I take an empty glass.

I pour the rice from the bag into the glass.

I pour the rice into the colander

I open the tap and rinse the rice for 15 seconds.

I pour the rice into the saucepan. Then I pour two glasses of water.

I turn on the stove and set the power to high.

When the water is boiling, I lift the lid and pour a pinch of salt and a few drops of oil.

I set the power to low and let it cook for 20 minutes.

I turn off the stove and wait five minutes.

I stir the rice and it's ready.
