

I check that the pockets of the pants are empty.

Before I put the laundry in the washing machine, I have to sort the laundry and separate the colors. I separate the dark laundry from the light or white laundry.

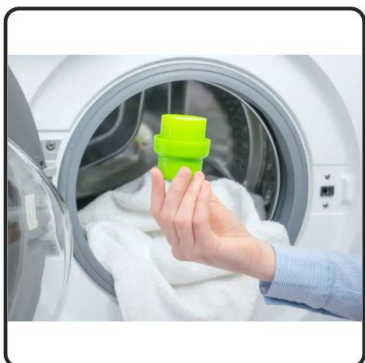

I put the laundry in the washing machine.

I do not overfill the machine. If I overfill the machine, the laundry will not be properly washed.

I put detergent in the machine. I can put it in this tray

I can also put the liquid detergent in a measuring cap and place it directly with the clothes.

Otherwise, I can also put a detergent capsule in the machine with the clothes

I choose the washing program. If I am not sure, I select a program at 30°C.
